

A stylized graphic of a light fixture. The top part is a solid black semi-circle with a vertical stem extending upwards. Below this is a large, rounded rectangular area filled with a warm orange color. Inside this orange area, there are several concentric, wavy white lines that create a glowing, flame-like or ripple effect, suggesting light emanating from within. The overall shape is reminiscent of a modern pendant light or a decorative lampshade.

Don't forget to turn the lights off
